### INTERN UPDATES

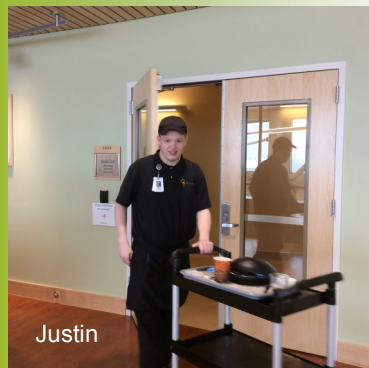

The CPH Project SEARCH Interns finished their second rotation in March, went on Spring Break, then began their third and final rotation. They have begun filling out applications and interviewing for jobs as well.

To prepare for this step in the process, a Mock Interview Day was held on March 7th. Representatives from the school district, hospital, DVR, Job Center, and Frontier Community Services conducted the interviews. Phone interviews were also included. We appreciate all those who took the time out of their schedules to make this event happen.

Interns attended a Job Fair on March 22nd at the Kenai Job Center.
